**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 11-15 and 18-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Provost (4551898)

Provost discloses a device having a jacket body (70), a contact section (38), a collar section (32) with threaded holes (42), a radial extension (40), and screws (54). The screws 54 can be used for both assembly and disassembly because the tool can be positioned so that the screw will push on the top of the workpiece instead of align with the threaded holes inherently.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are

Art Unit: 3723

such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 20 is rejected under 35 U.S.C. 103(a) as being unpatentable over Provost (4551898) .

a. Provost is discussed above.

b. In regard to claim 20, Strong discloses the claimed invention except for using deep drawn metal. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have made the invention using deep drawn metal, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its

Art Unit: 3723

suitability for the intended use as a matter of obvious design choice. *In re Leshin*, 125 USPQ 416.

***Allowable Subject Matter***

5. Claims 16-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

6. **Applicant's arguments filed 7/21/03 have been fully considered but they are not persuasive.**

7. **Applicant has filed an appeal brief.**

a. The brief was considered and new art was applied as well as allowable subject matter being cited.

***Conclusion***

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lee Wilson whose telephone number is (703) 305-4094.
